EDUCATION

Sacred Heart College of Lucena City Inc. *Aug 2023 – Present*
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Development, Database Management Systems, Software Engineering, Computer Networks, Cybersecurity Fundamentals.
Member: SSVP (St. Vincent de Paul), Sports Club, JPCS (Junior Philippine Computer Society).

TECHNICAL SKILLS

Programming Languages: JavaScript, Laravel, React, Typescript, HTML, CSS, PHP, C++, Java, C#, SQL, Python, C.
Frameworks & Tools: Node.js, Bootstrap, Express.js, Postman, Figma, Tailwind CSS, JavaFX, JavaSpringboot, Java Swing, ASP.NET, Arduino IDE, IoT.

WORK EXPERIENCES

Lucena City, Quezon
Academic & Project Experience | Software Development *Aug 2023 – Nov 2025*
Technologies: Java, JavaFX, Spring Boot, MySQL, APIs, C#, ASP.NET, HTML, CSS, JavaScript, Postman

- Developed multiple end-to-end applications including a food e-commerce site, student grade tracker, symptom-based diagnosis system, and a real-time earthquake monitoring and alert platform.
- Worked extensively with Java, JavaFX, Spring Boot, MySQL, PHIVOLCS API, C#, ASP.NET, HTML/CSS/JS, and Postman across academic coursework and hackathon projects.

PROJECTS

Food E-Commerce Website | HTML, CSS, JavaScript, MySQL, Figma *Dec 2023*

- Built product listing, cart system, authentication, and order tracking features.
- Improved UI responsiveness and optimized database queries for faster loading.

Nov 2025
Real-Time Earthquake Monitoring & Alert System (Hackathon) | JavaFX, Spring Boot, MySQL, PHIVOLCS API, Figma

- Developed a real-time dashboard that fetches earthquake data through PHILVOCS API and display live alerts.
- Implemented Spring Boot Backend services for data processing and alert distribution.
- Designed JavaFX UI showing intensity maps, recent quakes, and automatic notifications.

Symptom-Based Diagnosis System | Java Swing, Local DB, API, Figma *Dec 2024*

- Built an interactive system that offers possible diagnosis, remedies, and medicine recommendations.
- Integrated external APIs and sorting/search features for efficient lookup.
- Designed intuitive GUI elements and improved data validation.

Student Grade Tracker | C#, ASP.NET, MySQL, Figma *May 2024*

- Created CRUD functions for students, grades, and subjects with authentication.
- Built dashboards and summary reports using ASP.NET components.
- Ensured data accuracy with SQL-based validation.

LEADERSHIP

SSVP (Saint Vincent de Paul) Member – Sacred Heart College **Lucena City, Quezon**
Member *Aug 2023 – Present*

- Participated in community outreach programs and assisted in organizing charitable school activities.
- Collaborated with fellow members in coordinating donation drives and supporting service- oriented events.

JPCS (Junior Philippine Computer Society) **Lucena City, Quezon**
Member *Aug 2023 – Present*

- Engaged in technology-focused workshops, seminars, and skills-building activities related to ICT and programming.
- Collaborated with peers in participating in coding events academic initiatives, and organization-led tech programs.
