EDUCATION

Sacred Heart College of Lucena City Inc. *Aug 2023 – Present*

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Development, Database Management Systems, Software Engineering, Computer Networks, Cybersecurity Fundamentals.

Member: SSVP (St. Vincent de Paul), Sports Club, JPCS (Junior Philippine Computer Society).

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, HTML, CSS, PHP, Java, C#.

Frameworks & Tools: MongoDB, Express.js, React.js, Node.js, Axios, Mongoose, Material UI (MUI), Tailwind CSS, Flask, Laravel, MySQL, Postman, GitHub.

PROJECTS

Mar 2026

ClearEd – Multi-Tenant E-Clearance System (SaaS) | MongoDB, Express.js, React, Node.js

- Architected a full-stack **MERN** application that digitized student clearance processes across multiple academic departments, using React.js, Node.js, Express.js, MongoDB with Mongoose ORM, and TypeScript for type-safe development.
- Used **MongoDB** with **Mongoose ORM** for multi-tenant architecture with secure data isolation, **JWT** for authentication, and **Google OAuth API** (@react-oauth/google) for seamless single sign-on functionality.
- Used **React Context API** for state management, **React Router DOM** for protected routing, and **Axios** with interceptors to develop role-based dashboards for 4 user types with real-time clearance tracking and workflow automation.
- Used **bcrypt.js** for password hashing, **Express.js middleware** for route protection, **cloud file storage** for document uploads, and **audit logging** to ensure data security and compliance.
- Used custom **CSS** with "Bento" design system, **Lucide React** icons, **Google Fonts** (Google Sans, Product Sans), and glassmorphism effects to build responsive UI for premium user experience across devices.

Mar 2026

MyPortfolio – Personal Portfolio Website | React, Vite, Tailwind CSS, Framer Motion

Link: https://portfolio-website-abc.vercel.app/

- Developed a modern, responsive portfolio website using **React** (v19) and **Vite** for fast build performance, showcasing projects, technical skills, and professional experience with optimized component architecture.
- Used **Tailwind CSS** (v4) utility-first framework for custom responsive design, **Framer Motion** for dynamic page transitions and scroll animations, and **React Icons** for scalable vector iconography.
- Implemented client-side contact form functionality using **EmailJS** API integration, enabling direct email communication without backend infrastructure while maintaining form validation and user feedback.
- Used **ESLint** for code quality enforcement and applied performance optimization techniques including lazy loading, code splitting, and image optimization for fast page load times across devices.

May 2024

Student Grade Tracker | C#, ASP.NET, MySQL, Figma

- Developed a full-stack web application for academic grade management using **C#**, **ASP.NET MVC/Core**, and **MySQL** with **Entity Framework** for object-relational mapping and database operations.
- Used **ASP.NET Identity** for user authentication and authorization, **ADO.NET** or **Entity Framework** for CRUD operations on students, grades, and subjects with role-based access control.
- Built interactive dashboards and summary reports using **ASP.NET Razor Pages/Views**, **Bootstrap** for responsive UI, and **Chart.js or ASP.NET Chart Controls** for data visualization.
- Used **SQL Server Management Studio (SSMS)** for database design, **stored procedures** and **triggers** for SQL-based validation, and **Figma** for UI/UX wireframing and prototyping.

LEADERSHIP

SSVP (Saint Vincent de Paul) Member – Sacred Heart College **Lucena City, Quezon**

Member *Aug 2023 – Present*

- Participated in community outreach programs and assisted in organizing charitable school activities.
- Collaborated with fellow members in coordinating donation drives and supporting service- oriented events.

JPCS (Junior Philippine Computer Society) **Lucena City, Quezon**

Member *Aug 2023 – Present*

- Engaged in technology-focused workshops, seminars, and skills-building activities related to ICT and programming.
- Collaborated with peers in participating in coding events academic initiatives, and organization-led tech programs.
